Emlong's Plants and Trees

Grown in the Heart of the Great Fruit Belt

WILL DO MORE FOR YOU

Wherever fruit and flowers are planted, **Emlong's plants and trees are praised for their dependability.** You can get the best plants and trees in the world at Emlong's, without paying any more than you would elsewhere for just ordinary stock of uncertain origin. We place at your service a half century of experience and over 600 acres of the finest land in Berrien County, devoted to the growing of millions of plants and trees.

The loyal support of our customers has built this great business. Every year thousands of new customers are brought to us by our friends who have succeeded with Emlong plants and trees. **Deal direct with the largest grower in the fruit belt.** Insure your own success. Emlong's stand for **dependability, honesty and square dealing.** Compare our **quality and prices** with others—**judge for yourself!**

BIG ROOTS, QUICK GROWTH, YOUNG BEARING, HEAVY YIELDS, and HIGHEST QUALITY FRUIT have made Emlong's fruit plants and trees famous. We are right in the heart of the great northern fruit belt, where we can select the **FINEST STRAINS AND VARIETIES FOR YOU.** Surrounded by millions of bearing fruit trees, our expert selects buds from those showing the **BIGGEST CROPS OF HIGHEST GRADE, BRIGHTEST COLORED FRUIT.**

Nature and science combine to help us grow and handle trees and plants so that our customers get **all the roots and all the life.** We build our own modern machines for soil tillage, planting, cultivating, spraying, rain-making, digging, etc. It takes \$100,000 worth of equipment to grow nursery stock **the Emlong way!** Expert growers with life-time experience contribute their skill.

Field of Two-Year-Old Apple Trees Ready to Dig. Well-Branching, Smooth Bodied, Well-Rooted Specimens

We Have Nearly 500,000 Peach Trees Ready for Emlong Customers This Year. Most Beautiful Stock You Ever Saw. Every Tree Guaranteed Perfect

Over 100,000 of the Finest Sweet and Sour Cherry Trees Ever Produced, Ready For Particular Growers This Year. Get Yours Reserved Early!

Millions of Emlong-Grown Strawberry Plants Demanded by Successful Growers Every Year. Famed for Big Roots and Heavy-Yielding Ability

Visitors Enjoying a Section of Our Big Rose Show, Held Every Year in June. Over 15,000 Bushes in Full Bloom. Folks Come From All Over the U. S. A.

OF GREATEST IMPORTANCE TO YOU

When you buy a plant or tree, what you really buy is its **bearing or blooming power.** Regardless of whether you pay 15c or \$2.50 for a fruit tree, if you cannot depend on its **bearing power** it will be worthless to you. Good breeding in nursery stock is very important. Poor stock will bring forth poor fruit or flowers. Good stock brings forth Grade-A fruit and flowers, in great abundance. Emlong's fruit trees are **grown on choicest whole-root stock**, which means **full vitality and bearing power.**

There's no spot in the world so naturally ideal for producing highest quality plants and trees, as here on Emlong's fertile farms in the great northern fruit belt. Soil is high, well-drained, very fertile. Temperature just right in the fall to bring trees and shrubs gradually to a completely dormant state and make them hardy. Our **PERFECT-CIRCLE ROOTS** of bright, healthy color amaze everyone who sees them. **They are worth more to you, but cost no more.** Ask for our free bulletin, telling what others have done with Emlong stock.

QUANTITY RATES

COMMERCIAL FRUIT GROWERS. Send us a list of the plants and trees which you desire to plant this year and we will quote special quantity rates on the lot. Please state varieties and sizes preferred.

VISITORS WELCOME

Stop in when you pass our nursery office, on U. S. Highway 12 between Stevensville and St. Joseph, Mich. Come and get your stock during the planting season if possible. Visit our big Rose Show in June.

TIME TO PLANT

Early spring is the ideal time to plant most nursery stock. Things are dormant then, and will transplant without risk. Some stock can be planted in late fall. Strawberry plants should be moved only in spring. March and April and May are the main planting months. Perennial flowers are planted mostly in May.

GENERAL TERMS

Reserve your order **just as soon as you receive this book.** We will ship at the proper planting time for your locality, or you may notify us when you are ready to plant. Send full remittance with small orders. See next page for terms on larger orders. Please read information on the back of order blank. We prepay postage on perennial flower plants, bulbs, and small lots of strawberry plants. Other stock is shipped collect for charges, which automatically insures it in transit. Delivery charges usually amount to about 10 per cent of cost of stock, but this varies according to size of stock and distance shipped.

BUDED FROM BEARING TREES

Our fruit tree buds are cut from outstanding trees in the finest orchards in the Fruit Belt. We have millions of bearing trees from which to make our selection of buds. Western Michigan fruit has a nation-wide reputation for rich flavor and color. These important features are bred into Emlong-grown trees.

FRUITS and FLOWERS

Bring You Pleasure and Profit

ENJOY LIFE

You can win **happiness, health and wealth** growing fruit and flowers as your hobby or vocation. Get the thrill of **growing things**, out in the fresh air and sunshine. Make your yard or farm a flower and fruit bearing paradise.

It's easy and thrifty to have an abundance of flowers and fruits in your own yard. You don't need any experience. Just follow the simple planting and cultural directions which Emlong's gladly supply free.

MAKE MONEY

There's real money in fruit growing! Even a small plot of ground, wisely planted, will bring you a greater cash income than a large farm planted to ordinary crops. Reports of \$300 to \$1000 per acre from fruits are common. Professional folks everywhere are investing their money in farms and planting them full of fruits, so that they can retire to them in a few years and be independent and secure. Photos at the right are a few furnished by happy and successful customers. **Start this spring to grow fruits and flowers!**

"The 800 Fruit Trees are all living and making a remarkable growth. Some are bearing now, the year after planted! I am highly satisfied with our business relations and do not hesitate to tell others."
FRANK E. HERING, Indiana.

Matchless Quality

Search where you may, you cannot find fruit trees at any price that match Emlong Quality. Note the bunch of 7 peach trees at the right. **Perfect circle roots**, smooth bodies, well-balanced top growth. Our other plants and trees are equally perfect. They insure your success. They challenge competition.

1941 Big Cash DISCOUNTS

You can help us to give better service by getting your orders in early. In return for this favor, and as interest on your money until planting time, we offer the following discounts:

JANUARY 20%

If you send full cash with your order during January, you may either deduct 20% cash discount, or take 20% extra stock free.

FEBRUARY 15%

If you send full cash with your order during February, you may either deduct 15% cash discount, or take 15% extra stock free.

MARCH 10%

If you send full cash with your order before March 15th, you may either deduct 10% cash discount, or take 10% extra stock free. **No discount after March 15th. No discount on bargain collections.**

Emlong's GUARANTEE

Every item described in this catalog is guaranteed to be first-class, true-to-name, and to reach you in satisfactory growing condition. Stock which arrives damaged will be replaced free if your claim is mailed within 3 days after its arrival at your station. Have Express Agent or Postmaster sign the damage statement. Stock which dies after being planted will be replaced the following season **provided your claim of loss is sent to us NOT LATER THAN JULY FIRST OF YEAR STOCK IS PLANTED.** Stock reported dead after July 1st will be replaced at half-price up to October 1st. **After October 1st no claims will be allowed.** The nursery assumes liability only for the original purchase price of stock.

Your Family Needs This
"Family Delight"
PEAR GROVE
6 TREES

\$2.65

4 to 5 Ft. Select Branched.
Every type and flavor you'll want for eating
and home canning! Provides loads of fine
fruit from less than a \$3.00 investment!
We send: 1 New Seedless, 1 Seckel, 1 Bart-
lett, 1 Lincoln, 1 Clapp's Favorite, 1 Bosc.
CHOICE OF TWO SIZES: 3 to 4 ft., all for
\$1.95. (Mail or Express, not prepaid.) **4 to**
5 ft., all for \$2.65. (Express.) No discount.

NEW Seedless

GREATEST PEAR OF THE 20th CENTURY

Introduced by Mr. J. Cope, Ohio nursery-
man, and endorsed by Prof. Ellenwood,
Ohio Agricultural Experiment Station.
This delicious new Pear has rapidly gained
favor, until it is now in great demand
from coast to coast! It's as large as
the largest Bartlett, and of equally fine
quality.

A Triumph in Quality and Flavor

Every bite a delight! Smooth but firm, juicy and
sweet—packed full of richness. **NO SEED—NO
CORE—JUST SOLID WHITE PEAR ALL THE WAY
THROUGH.** You save the third usually wasted in
ordinary pears. It's so easy to can and serve the
smooth halves or whole pears for fine salads and
desserts. Just peel them and can them whole if
you want something extra good!

A Practical Commercial Fruit

Seedless Pear is **not a novelty.** It is a practical,
high-grade fruit for home or market. The skin
ripens to golden color with russet flecks and blushed
cheek. **RIPENS 10 DAYS AFTER BARTLETT and
KEEPS SEVERAL WEEKS IN ORDINARY STORAGE.**

Seedless Pear trees usually bear when
**three years old, and produce enormous
crops.** They are thrifty growers, regular
bearers, very hardy, and resistant to
blight.

Get in on the Profits

Here is your opportunity to plant a de-
pendable money-making Pear and have
fruit ready to sell in a very short time.
Brings twice the price of ordinary varie-
ties. **A short-cut to profits!** (Emlong's
are licensed growers and distributors of
this Patent Applied For variety.) **Order
today—plant this spring.**

EMLONG'S MAMMOTH DELICIOUS

Eureka

The Red Nectar-Fruit

A TRIPLE-FLAVOR BLEND

You who appreciate good Plums, Peaches and Apricots will certainly enjoy the flavor of Eureka. It is seemingly a delightful combination of all these flavors. Eureka is a fruit, that is sweet and juicy enough to eat when only half ripe, in the **golden stage**. Continue to eat and enjoy it until September, when the skin is **rich maroon-red** and flesh is tempting gold. It's delightful canned whole or in halves in either stage of ripening. The canned juice has a strong apricot flavor—ideal for making fruit syrup.

BEARS VERY YOUNG

Eureka trees are so full of pep that they often start bearing the second year. Mr. Walter Warsko of Watervliet, Mich., had such a load of fruit on his three-year-old trees that they could hardly hold up under it—even after thinning the fruit! Mr. R. Z. Nolan, the originator, removes one-third to one-half of the crop every year to prevent crowding and keep trees from breaking down with the load of fruit. Mature trees bear up to 12 bushels of full-size fruit. We have counted 35 to 50 plums on a single branch. When properly thinned, the fruit becomes so large it must be canned in halves. Single specimens often measure 2 to 2½ inches across. Eureka test-trees have never missed a crop in 15 years, proving them to be ideally hardy. Skin is firm enough to stand long-distance shipping.

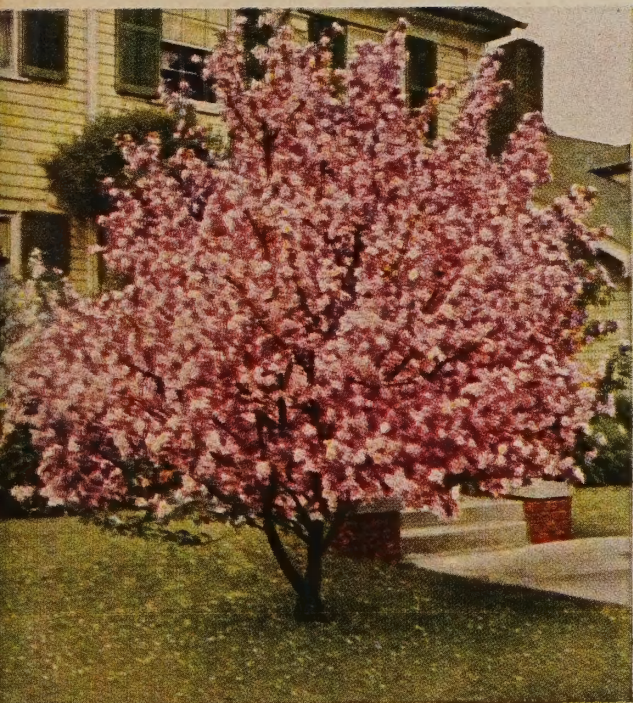

DEPENDABLE, HARDY, MONEY-MAKING VARIETY

Eureka trees are self-pollenizing, bearing a full crop even when other kinds fail. Fruit sells readily at \$2.00 up per bushel wholesale. Set Eureka trees 20 to 25 feet apart. **Order today—plant this spring.** (Eureka trees are grown only by Emlong's.)

Emlong's DOLGO The FRUIT-BEARING FLOWERING CRAB

2 NICE TREES \$1

This beautiful flowering Crab Apple tree originated in the Northwest, and is hardy throughout the country. It does not grow very large, but puts on a beauty pageant every spring with loads of bright pink flowers. And, when the branches are bent to the ground with bright red-all-over fruit, it is a fall fruit festival all by itself! The apples are oblong, measure about 1½ inches long. Delicious to eat fresh. Make firm, bright red jelly, and tasty cider. **Plant a row along your alley or drive this spring.**

PRICES—DOLGO CRAB TREES:
3 to 4 ft., each 59c; 2 for \$1.00;
10 for \$4.50. 4 to 5 ft., WELL-BRANCHED SPECIMENS, each 69c; 2 for \$1.20; 10 for \$5.50.

Sure-to-Bloom Wisteria

CLIMBING VINES

Nature's Artistic Draperies

Let nature drape your yard with beauty! Climbing vines soften the lines, add charm, and that "homey" look impossible to obtain with other plants. Let them ramble over fences, trellises, archways, arbors, pergolas, entrances, hill-sides and terraces. A complete assortment provides blooms from spring until winter. (See page 33 for Goldflame Honey-suckle and large-flowered Clematis vines.)

Only 59¢ **GRAFTED WISTERIAS (Sure-to-Bloom)**
Now you can be sure of an abundance of long clusters of purple pea-shaped Wisteria flowers, for these vines are **grafted**. Vigorous-growing, long-lived, grand for pergolas and arbors. Plant 8 to 10 ft. apart. 2-yr. grafted, 59c each; 4 for \$1.95, **mailable**.

Orange-Berried Bittersweet

BITTERSWEET—ORANGE BERRY

You'll love this vine the year around. Its small yellow blooms are followed by clusters of berries which turn brilliant orange-red in fall. Hard outer coat of berries opens to form orange wings around the red center. Dried bouquets last all winter. **Plant in pairs to insure bearing.** Prune as desired. Stands shade and poor, dry soil. 2-yr. vines, 2 for 85c; 10 for \$3.50, **mailable**.

2
VINES
85c

Hall's Fragrant HONEYSUCKLE

Strong-growing, branchy vine which quickly covers fences, trellises, etc. Fragrant two-tone yellow and white blooms June to October. Very hardy. Nearly evergreen. Plant 6 ft. apart. **Strong, 2-yr. vines, 45c each; 4 for \$1.35, mailable.**

Fall-Blooming Vine SILVER LACE

The entire vine is completely aglow with myriads of beautiful snowy white clusters of flowers from summer to late fall. Rapid grower, of free-branching habit. Plant 8 feet apart. **Strong, 2-yr. vines, 45c each; 4 for \$1.35, mailable.**

BOSTON IVY

AMPELOPSIS VEITCHI. Clings tenaciously to any surface. Bountiful producer of small, 5-lobed leaves, which turn red in fall. Stands shade. Plant 8 ft. apart. Gets established first year, then grows rapidly. **Strong, 2-yr. vines, 45c each; 4 for \$1.35, mailable.**

CLEMATIS

CLEMATIS PANICULATA or **SWEET AUTUMN-FLOWERING.** Bears millions of tiny white blooms of lovely fragrance. Graceful climber, excellent to cover trellises, fences, etc. Plant 6 ft. apart. **Strong, 2-yr. vines, 45c each; 4 for \$1.35, mailable.**

PERGOLA COVERING Assortment of 6 Vines

We will send 1 vine each of the 6 varieties described above, same strong 2-yr. grade. No discount. **Mailable.**

OTHER LOVELY HEDGES

Besides those described on this page, the following shrubs are suitable for hedges: Red Barberry, Pussy Willow, Bush Cherry, Lilacs, Flowering Quince, Rose of Sharon, Crimson Spirea, Hydrangeas, Caragana, Russian Olive, Shrub Roses, Tamarix. Described elsewhere in this book.

GREEN BARBERRY—20 for \$1.25

Nothing more charming than a low, bushy hedge of green-leaf barberry! Turns brilliant shades of red and gold in autumn. Small white blooms and loads of red berries. Grows 3 to 4 ft. tall but can be clipped to desired height and shape any time in summer. Plant 18 inches apart. Also useful for borders, groups, specimens, foundations. Extremely hardy, drought resistant, rust-proof.

THIS
IS

RedHale

THE PEACH OUR CUSTOMERS ASKED FOR . . .

So many of the big peach orchard-ists here in Berrien County wanted us to grow trees of this variety for them, that we just had to grow a supply for all of you!

Redhale is a late type, coming soon after Elberta. The fruit resembles Hale in fineness and firmness of flesh, and richness of flavor. It colors up to a rich gold and deep red, making a beautiful market pack.

In shape, Redhale is between Hale and Elberta, being more round than Elberta, and easier to pack. Large-scale growers find it a great money-maker.

Redhale is perfectly **self-pollen-izing**, and perfectly **freestone**. It has the ability to produce a **tremendous load of fruit** and mature it all to good size. Keeps wonder-fully well for shipping purposes, and is an ideal late canning peach.

REDHALE As Redhale is so popular with the Michigan fruit-belt growers, our supply of trees will no doubt be reserved early. We invite you to reserve your order as quickly as possible to be sure of getting the number of trees you desire for planting this spring. **We advise spring planting of all peach trees.** Planting trees 20 feet apart each way, you will require about 100 trees to the acre.

Famous J. H. HALE

EMLONG'S RECORD-PRODUCING STRAIN

The Hale Peach is always in demand for fancy dessert purposes, both fresh and canned. House-wives endorse it by paying bigger prices for it! J. H. Hale is an extra big, round, highly colored beauty with golden yellow flesh. Fine-grained, firm, juicy, exquisitely flavored. Skin almost fuzzless. Freestone and semi-fertile. Plant a good pollinizer peach with it, every third row.

Order today. Plant peaches in spring only.

O'Boy

THE PERFECT PEACH

Trade-Mark Reg.
Grown and Sold
Only by Emlong.
Propagation Rights
Reserved.

If you are looking for the largest, richest, most beautiful Peach in the world, **here it is!** Everyone who sees it exclaims in wonder, "O'Boy, what a perfect Peach." So we named it O'Boy. It is round and uniformly shaped. Skin is glowing orange, blushed all over with rich, dark red, even before ripe.

The minute you taste either a fresh or canned O'Boy Peach, you'll agree that it is the most highly flavored Peach you ever ate. The flesh is rich orange. There's a sunburst of bright red around the pit which glorifies the flesh and imparts a superbly rich flavor to it. This peach-red color is retained in the canned fruit and juice.

Orange Flesh,
Just Oozing
With Goodness
and Flavor

Left—A three-year-old O'Boy tree with some of the leaves cut off to show the heavy load of fruit. Note the size and uniformity of the peaches.

Emlong's Nursery,
Stevensville, Mich.
Gentlemen: I wish to say that the O'Boy is the largest, finest-flavored, and brightest-colored Peach I have ever had in my orchard. It's a real money-maker.
GEO. SCHAIRER,
Orchardist.

Gentlemen: This is to certify that I have purchased all of the O'Boy Peaches that have reached the Benton Harbor market, at \$2.25 per bushel wholesale.
CHAS. MILES,
Fruit Buyer.

2 NICE TREES \$1
While they last! 2 to 3 ft. branched O'Boy trees at 2 for \$1.00; 10 for \$4.50. Limited Time Offer.

O'Boy is the largest Peach ever seen in southwestern Michigan, one of the greatest peach belts in the world. It makes all other varieties look small. Even little 3-year-old trees will bear these big beauties. The trees thrive on heavier soil than most varieties, but excel wherever peaches are grown. Firm of flesh and skin, O'Boy Peaches hold up under adverse weather and long-distance shipping, even in warm weather. You'll want to can them exclusively for your fancy table use. They are perfectly **freestone and self-pollenizing**.

The lowest wholesale price ever paid for O'Boy Peaches has been \$2.25 per bushel. Buyers fight for them on the market. The fruit ripens when Elberta is finishing, bringing extra dollars for your budget. There is a place in your orchard for this **young-bearing, big-paying Peach**. Don't fail to plant an orchard this spring. Set trees 20 feet apart. Plant in spring only. **But order quickly, as the supply of trees will not go around!**

GREATEST NEW SHIPPING PEACH OF THIS DECADE

BEAUTY QUEEN OF PEACHES HIGH FLAVOR AND QUALITY

There just isn't any other peach with quite the same flaunting, red-all-over dress as this gorgeous daughter of Elberta! On the tree and in the basket it captures the eye above all other varieties with its brilliant color. Reddens long before ripe. Can be picked and shipped to distant markets while at its best.

Though Redelberta is the same size, and somewhat the same shape, as Elberta, it is a decided improvement in flavor. Redelberta is rich and sweet, free from all bitterness. The flesh is fine and firm, making it ideal for eating fresh, canning, or shipping. Takes its place with the world's big-shipper peaches.

RIPENS VERY EARLY

Fully a week to ten days ahead of regular Elberta, you can pick Redelberta. Follows Hale-Haven on the market, here in the middle west. Brings higher prices than other early varieties. Deserves an important place in your orchard.

GROW IT WITH CONFIDENCE

Redelberta is hardy, **perfectly freestone and self-pollenizing**. It produces a full commercial crop and bears very young. Firmness of flesh and skin give it an "A" rating. **Plant a big orchard this spring—but reserve your order today!**

Bristol, Ind.
"My Redelberta peaches were ripe August 25th—ahead of Stark's Early Elberta. Certainly a beautiful peach! Large, and red-all-over, so they can be picked while firm for shipping."
JUDSON ORCHARDS.

Normandale, Ontario.
"Redelberta ripened a week earlier than Elberta, when we had no other good firm peaches ripe. Some of the 2-yr.-old trees bore a bushel of fruit."

Kennewick, Wash.
"My Redelberta peaches sold at \$1.25 per box when Washington Rochester were selling at 50c and California Hales selling at 85c. They ripened ahead of all other Elberta strains."
JAY PERRY.

Emlong's REDDER STRAIN HALE-HAVEN

Second only to Elberta in popularity, and in the number of trees planted each year! Each Hale-Haven Peach is a great big, round handful of rich, snappy, tempting sweetness with a flavor you never forget. One of the grandest shipping and canning peaches introduced. Retains its richness of flavor in the canned form.

Hale-Haven Peaches color to a rich orange all over, deeply overspread with glowing carmine-red. Color on the tree long before ripe. **Emlong's strain is redder than all others because of special selection of buds from marked trees.** Hale-Haven ripens about 15 days ahead of Elberta. It is perfectly self-pollenizing and freestone. A regular and prolific bearer, with No. 1 ranking for hardiness. **Order trees today—plant this spring sure.**

HARDEE PEACH FOR COLD CLIMATES

U. S. Pat. No. 120

Here is a variety you must have in your orchard for "crop-insurance." Highest rating for hardiness of wood and bud. Bears twice as much fruit as other hardy varieties after severe winters. Peaches resemble Elberta in shape, color, quality. Finer flavor. Can be picked later because of superior keeping quality. A freestone, self-pollenizing market Peach.

Add 20% to Your Peach Profits with FERTILE-HALE

(U. S. Patent No. 175)

When you've finished picking your Elberta Peaches, it's mighty nice to know that you can still add about 20% to your peach income, with a nice planting of Fertile-Hale. It's an Elberta-Hale type peach, ripening about a week later than Elberta. Has rich Hale flavor and quality. More colorful than Elberta, and more round in shape. High ranking for hardiness, big yield, shipping and canning quality.

Fertile Hale is a perfect freestone, self-pollenizing, heavy-bearing type. It has taken its place with other big-paying commercial peaches for large-scale planting. **Order trees today—plant only in spring.**

FAMOUS**

FRUIT BELT

PEACH TREES

GROWN IN THE HEART OF THE GREAT FRUIT BELT

Elberta—Great Shipper and Canner—10 trees, \$1.95

Branch of Golden Jubilee

Priced as low as 10 for \$1.95

IMPORTANT TO YOU! Emlong's Peach Trees are budded from bearing orchards, the buds being selected right here in Berrien County, in the heart of the great northern Peach Belt. You can **depend on them being true-to-name**, and of the **heaviest fruiting strains** which bear the **brightest and largest fruit**. Our peach trees are all **dormant bud stock**, which means they have two-year roots and one-year tops. They are all **well-branched, big caliper, and famed for abundant root growth**. Plant them once—you'll never want any other brand! Set peach trees 16 to 20 feet apart each way. They can be planted between apple trees if the apple trees are set 40 feet apart. Peach trees bear in two years, and produce a paying crop while the apple trees are maturing. **See pages 8, 9, 12, 13, for other varieties of Peach Trees.**

GREAT ELBERTA—3 to 4 Ft. Trees, 3 for 79c

No other Peach has ever attained the success and fame from coast to coast, that Elberta enjoys. Genuine Elberta are roundish oval with golden yellow skin blushed red on one cheek. Ripen midseason to late. Leading canning and shipping sort because of firm quality and good flavor. Freestone, and the self-pollenizing trees are strong growers, enormous producers. Plant 25 per cent of your orchard to Elberta—use Emlong's northern strain. **PRICED BELOW.**

OCTOBER ELBERTA

An extra-large Elberta-type Peach which ripens 10 days or more after regular Elberta. Excellent yellow coloring with red cheek. Dandy flavor. It's hardy, freestone, self-pollenizing, big producer, wonderful keeping quality. **PRICED BELOW.**

EARLY DISCOVERY

Called the "White-Honey" Peach. It's a real flavor-treat! Big white fruit, splashed all over with dazzling red. **Ripen in July.** Extremely hardy, and a big cropper. **Usually starts bearing second year!** Marvelous flavor and fragrance. You must grow it! **PRICED BELOW.**

GOLDEN JUBILEE

Big-paying, hardy, heavy-cropping commercial Peach which ripens extra-early. Somewhat oblong in shape, it colors to brilliant orange, brightly blushed with dark red. Wonderful flavor, perfect pollenizer, freestone, fine shipper. **PRICED BELOW.**

SOUTH HAVEN

Famed for its extreme **hardiness, big yields and deliciously flavored fruit**. Fancy, round, golden peach brightly splashed with red. A great canner. Ripens 10 to 15 days ahead of Elberta. Freestone and self-fertile. **PRICED BELOW.**

ROCHESTER

Round, orange-colored fruit with blazing red cheeks and markings. Extra-rich flavor, firm flesh make it an excellent canner and shipper. Ripens very early, is wonderfully hardy, freestone and a perfect pollenizer. **PRICED BELOW.**

THESE ARE EMLONG'S 3 Great Delicious Apples

(1) SOLID-RED DELICIOUS

King of the fancy red winter dessert apples. Biggest seller of all! Colors to bright, flashy red all over, long before ripe. Can be picked and sold before ripe, while still 100% solid. The fruit is uniformly large in size, typical Delicious shape, makes a fancy pack. Excellent shipping and storage Apple. Trees are thrifty growers and heavy producers.

(2) YELLOW-GOLD DELICIOUS

(Photo is greatly reduced to show heavy-bearing habit.) Finest flavored yellow winter dessert Apple in the world! Skin is showy, waxy gold with pale pink cheek on sunny side. Flesh is mellow, crisp, sweet, white and aromatic. Famed for young and heavy bearing. Emlong's large-fruited strain can't be beat at any price!

(3) BRIGHT RED DELICIOUS

The big, jumbo, bright red Apple which has gained national popularity for fancy winter dessert purposes. This strain is especially selected by Emlong for its extra-large size, bright color, heavy production. Famed for ability to thrive from coast to coast.

A Great New Idea

QUINTUPLET FRUIT TREES

5 Different Varieties on 1 Tree

Just the thing for the small city lot, where space is limited! Triplet and Quintuplet trees give you several kinds of fruit from each tree. They bear a full load of fruit. Trees grow to the usual size. Handle the same as other fruit trees. **Supply limited—Order early.** Spring delivery only.

QUINTUPLET APPLES, \$1.25

These apple trees are budded in the regular way, and allowed to grow 2 years and branch. Then four other varieties are budded to them, so as to give you five different varieties of apples from each tree. Extra-choice stock. Will bear summer, fall, and winter apples. Best eating kinds. Quickest-bearing sorts. Should give you some fruit next year. **All 4 to 5 ft. well-branched trees, \$1.25 each.**

QUINTUPLET PEARS, \$1.25

You'll surely prize these trees, for they give you an assortment of delicious, sweet, mellow, fine-textured eating and canning pears from summer until winter. A whole orchard, on one tree! **4 to 5 ft. well-branched trees, \$1.25 each.**

TRIPLET FRUIT TREES

We have a limited supply of Triplet Apple and Triplet Pear trees at \$1.00 each. Each of these trees will bear **3 kinds of fruit.** Regular size and quality. Trees measure 4 to 5 feet tall.

Apple tree which bore 5 kinds of fruit, ripening from August till winter.

GOOSEBERRIES

- ***RED JACKET.** Big, roundish oblong berries with a mild, sweet flavor. Delicious for fancy desserts, salads, preserves, pies, etc. Bushes lovely as shrubs. Small yellow bloom. **Large 1-yr. bushes, 35c each; 3 for 85c; 6 for \$1.25; 25 for \$4.95.**
- ***DOWNING GREEN.** Large greenish yellow variety favored for shipping and canning. Highly flavored. **Large 1-yr. bushes, 3 for 75c; 12 for \$2.45; 25 for \$4.50; 100 for \$15.00.**

CURRENTS

- ***New RED LAKE.** Biggest, sweetest, finest improved Red Currant on the market. Large bunches, produced in profusion. **Extra hardy. 1-yr. bushes, 35c each; 3 for 85c; 6 for \$1.25**
- ***RED CHERRY.** Standard, big-yielding Red Currant grown for canneries and market. Makes sparkling red jelly and tasty pies. **Large 1-yr. bushes, 3 for 75c; 12 for \$2.35; 25 for \$4.00; 100 for \$10.00.**

*IMPORTANT NOTICE!

23 states require special permits attached to shipments of Currant and Gooseberry plants. **Order early** so we can apply for your permit. **We do not ship these plants outside of Michigan after they start leaves** (which is usually late April).

Hardy Nut Trees For Your Home Grounds

PECAN

Hardy, thin-shelled variety. Bears large, tasty nuts. **4 to 5 ft. grafted trees, \$1.35, by Express.**

BUTTERNUT

Large, handsome, elongated nuts with richly flavored sweet kernels. Quick growing, big yielding trees. **4 to 5 ft., \$1.00 each, Express.**

FILBERT

American Hazelnut. Roundish nut with thin, tender shell. Round, sweet kernels. Trees grow rather bush-shaped. Hardy, young bearers. Like plenty moisture. **1½ to 2 ft. size, 85c, mailable.**

BLACK WALNUT

Majestic tree with fancy fernlike foliage. Round black nuts of excellent rich flavor. **4 to 5 ft., \$1.00, Express.**

All 4 Nut Trees, \$3.50

One each of the above 4 kinds, same size as described. **Express.**

Hardy Thin-Shell Pecan—\$1.35 per tree

Red Jacket Gooseberries—3 bushes, 85c

Red Lake Currants—3 bushes, 85c

Grow **FULL SIZE** Fruit on **DWARF SIZE** Trees

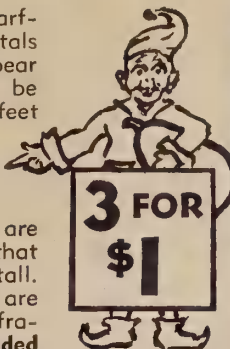

Dwarf Growing Sapa Plum—40c each

Here is a group of dwarf and dwarf-growing trees lovely as ornamentals for the lawn, and useful to bear delicious edible fruit. Can be planted as close as 5 to 10 feet apart.

Dwarf Pears

These little dwarf Pear trees are budded on Quince roots so that they never grow over 8 feet tall. Artistic upright habit. Trees are aglow with loads of creamy, fragrant blooms in spring. **Loaded full of FULL SIZE PEARS** in summer and fall. Often bear larger fruit than standard trees. **BEAR VERY YOUNG**—often in the nursery row. Can be trained as espaliers, but bear more as trees. **CHOICE OF FINEST VARIETIES:** BARTLETT Summer; CLAPP'S FAVORITE Late-Summer; LINCOLN Fall; SECKEL Red Sugar Pickling Pear.

Dwarf Bartlett Pear Trees—3 for \$1.00

PRICES, ALL VARIETIES NAMED ABOVE:

	Each	3	10	25	100
2 to 3 ft. . .	40c	\$1.00	\$2.95	\$6.25	\$20.00
3 to 4 ft. . .	55c	1.50	4.50	10.00	35.00

Sure-Crop NECTARINE

A flash of gorgeous pink blooms on small, symmetrical trees in spring. Sweet, juicy, appetizing fruit in autumn. Skin smooth like plum, flesh tastes like peach. Delicious fresh, canned, dried. Yellow with red cheek. Freestone, self-fertile. **2 to 3 ft. 40c; 3 to 4 ft. 50c. Mailable.**

Red-Fleshed SAPA PLUM

Ropes of bright reddish purple fruit bend the branches right to the ground. Terrific bearer! Red, sweet flesh. Grand to eat fresh, canned, preserved, or in jelly. Freestone, self-fertile. Small trees have lovely blooms in spring. A real wonder-tree! **3 to 4 ft. branched, 40c each; 3 for \$1.00. Express.**

Sure-Crop Nectarine
40c up

Hybrid Oka Cherries—Dwarf Trees, 40c each

OKA HYBRID CHERRY

Let this dwarf-growing tree branch almost from the ground up, to enjoy its full beauty of blooms and full crop of fruit. Fruit is 1 inch in diameter, black skin and flesh. Very sweet. Ripens late July. Thrives where other sweet Cherries fail. Plant near your plum trees. **3 to 4 ft. branched, 40c each; 3 for \$1.00. Mailable.**

Fruit of **ORANGE QUINCE** shown above. **QUINCE FLOWER**, full size, below. Lovely silvery pink.

ORANGE QUINCE

A true dwarf, never gets over 8-10 feet tall! Silvery pink flowers fully 2 inches across, plus stiff ornamental leaves, make it a delightful lawn tree. Also highly profitable, as fruit always brings high prices. Orange variety bears large, shapely fruit which ripens to clear yellow. Delicious baked, preserved or made into jelly, alone or with other fruits. **3 to 4 ft. trees, 65c each; 3 for \$1.80; 10 for \$5.50.**

You'll Want Some of This **RED SWEET RHUBARB**

3 BIG ROOTS, \$1⁰⁰

It's the new MacDonald Seedless variety which beats all others! Bears stalks up to 2 feet tall, red all way down, and tender all way down! Mildly acid, takes less sugar than other Rhubarb. Planting lasts a lifetime! **Grown from divisions.** Out-yields common Rhubarb. **No. 1 Divisions, 40c each; 3 for \$1.00; 6 for \$1.85.**

5 DWARF-GROWING TREES

You'll certainly get worlds of fun and fruit from this dwarf orchard! We send **1 DWARF BARTLETT PEAR, 1 OKA DWARF CHERRY, 1 SAPA DWARF PLUM, 1 ORANGE QUINCE, 1 NECTARINE TREE.** All 3 to 4 Ft. Mail or Express.

COMPLETE LIST OF POPULAR VARIETIES AS FOLLOWS

BARTLETT. Favorite Summer Pear. Most widely grown, and biggest selling Pear. Sets the standard of quality and flavor by which other Pears are judged. Big, long, waxy yellow with red blush. Fine-textured, sweet, mellow, white flesh. Favorite for eating, canning, shipping, summer storage. Trees are hardy, thrifty, regular bearers. **PRICED BELOW.** Photo page 20.

CONFERENCE—Blight-Resistant. Originated in England, this golden russet-flecked Pear is popular for its mellow flavor and smooth, sweet, juicy flesh. Ripens mid-Sept. Excellent keeper. Never known to blight. Photo page 20. **PRICED BELOW. 3 to 4 ft. trees only.**

COPE'S SEEDLESS. See prices and description on page 4.

MENDEL—Blight resistant. Extremely hardy variety for the far north. Never known to blight. Bears medium-large, sweet, juicy fruit. 3 to 4 ft. trees only. **PRICED BELOW.**

PATTEN—Very Hardy. Large, yellow and red Pear with fine, sweet, juicy flesh. Fine for dessert purposes. Ripens in August. Bears young, heavily. Extremely hardy and blight resistant. 3 to 4 ft. trees only. **PRICED BELOW.**

BOSC—Long-Neck Winter Pear. Artistic long-neck russet-yellow fruits with fine, juicy, white flesh. Keep in storage for the holidays. Small-growing trees, but heavy yielders. **PRICED BELOW.**

CAMPA. See description and price on page 20.

CLAPP'S FAVORITE—Late Summer. Extra-large greenish yellow fruit with brilliant red blush. Ripens early summer. Fine-textured, juicy, crisp, sweet. Resistant to bruise. Excellent shipper and seller. Hardy, big producer. **PRICED BELOW.**

KIEFFER—Winter Storage. Big, greenish yellow fruit picked late fall can be stored for winter use. Mellow in storage. Favorite for baking, canning, drying, shipping. **PRICED BELOW.**

LINCOLN—Early Fall. Extra-large, unique shape fruit turns greenish yellow with blush. Crisp, white flesh that's mellow and sweet. Very hardy, thrifty grower, heavy producer, long-lived, never known to blight. Young bearer. **PRICED BELOW.** Photo page 20.

SECKEL—Red Sugar Pear. Little red-and-russet Pears to eat right off the tree and to pickle whole with stems on. Very hardy, big producers, thrive anywhere. Plant several trees in your yard or orchard as you can sell any surplus readily at a fine profit. **PRICED BELOW.**

Typical Branch of Eureka Plum (Page 5)

Emlong's Famous **LARGE MONTMORENCY**
World's Favorite Pie and Cider Cherry

THE ALL-PURPOSE SOUR CHERRY

Montmorency is now unquestionably the only profitable and thoroughly satisfactory Sour Cherry to grow, regardless of where you live. It is preferred by canners and pie makers everywhere. Deliciously sub-acid, it is good to eat right off the tree, made into pies, or canned. Makes delicious cider, which takes its place among the modern health-drinks. The fruit ripens midseason to late. Has remarkable keeping quality on the tree and after picked. There is always a big yield of "A"-Grade fruit. For a well-balanced Cherry orchard, plant 50% Montmorency and 50% assorted sweet varieties. Set the trees 25 feet apart. A half acre requires only 32 trees.

TREES BEAR YOUNG

Emlong's large Montmorency trees bear very young—often the second year. Our special strain of large-fruited trees has been built up by careful selection of buds from marked trees which show largest fruit and biggest yield.

FRUIT BELT TREES

Emlong's nursery is located right here in the greatest fruit belt in the country, and our trees are **all home-grown** and **northern-grown**. We are extremely proud of the quality of our Montmorency trees. They please all the big growers—they will please you also. **Buy direct from the grower and save money. Plant this spring!**

Napoleon Sweet Cherry

Grow the Biggest, Sweetest, Finest Quality

CHERRIES

Right in Your Own Yard!

You'll never know how good sweet cherries can taste, until you grow them in your own yard to pick and eat fresh! Or how much profit they can bring you, until you grow Emlong's Fruit Belt trees. They're bred to bear quickly and heavily, and produce largest, finest quality fruit. Set two or more varieties to insure perfect pollenization. 64 trees, set 25 feet apart, plant an acre. **Order today—plant this spring!**

POPULAR AND PROFITABLE VARIETIES (Photos on page 25)

BING. Giant, plump, round, beautiful! The delicious brownish black-red sweet dessert Cherry which tastes so good fresh and canned. Ripens medium-late. **PRICED BELOW.** (No Super-Size trees.)

BLACK TARTARIAN. Glossy, purplish black fruit ripens early and has marvelous flavor. Excellent shipper. Emlong's strain bears large fruit! Trees are vigorous growers, big producers, dependable bearers. **PRICED BELOW.**

EARLY PURPLE. Ripens earlier than any other sweet Cherry, coming on the market when everyone is cherry-hungry and brings fine profits! Dark purplish black fruit, sweet and juicy. Good shipper. **PRICED BELOW.** (No super-size trees.)

GIANT BLACK. See page 25 for description and price. Supply limited. (No super-size.)

GOLD. Hardest sweet Cherry. Ripens to pure amber-gold. Very sweet, mild, dessert and salad variety. Large fruit. (Birds will not molest it, as they think it is not ripe!) **PRICED BELOW.** (No super-size trees.)

LAMBERT. Extra-late—gets the last dollars on the market. Richly flavored, black sweet variety. Good bearer. **PRICED BELOW.** (No super-size trees.)

NAPOLEON, or ROYAL ANN. Most popular yellow-gold sweet Cherry because of mellow flavor and beautiful pink cheek. Firm, fine quality. Attractive heart-shape. A dependably heavy yielder. **PRICED BELOW.** (No super-size trees.)

SCHMIDT. No doubt the biggest selling commercial black sweet Cherry. The height of excellence in quality for eating, canning, storing, shipping. Crisp, firm, sweet, fine flesh. Ripens midseason. Trees are vigorous growers, tremendous producers, sure croppers. **PRICED BELOW.**

SENECA. Extra-early, very black sweet Cherry. A week or more ahead of Tartarian. Wonderful flavor and quality. Hardy and a full cropper. Great money-maker! **PRICED BELOW.**

WINDSOR. The finest late blackish red sweet Cherry on the market! Should occupy one-fifth or more of your sweet cherry orchard. Extra-firm large fruit, richly flavored. Clings to tree without spoiling, long after ripe. A leading shipper. Trees are large growers, big yielders, regular bearers. **PRICED BELOW.**

ASPARAGUS

*Easy to Grow and
so Good for You!*

EARLIEST AND MOST PROFITABLE VEGETABLE

One Planting Lasts Many Years!

EVERYONE CAN EAT Asparagus, regardless of age or health. It's a mild, non-starchy, vitamin-filled vegetable which should be served daily when in season, and canned in generous amounts for year-round use. 100 to 250 roots will provide amply for the average family. WE FURNISH HOME CANNING DIRECTIONS UPON REQUEST. ALSO COMPLETE CULTURAL DIRECTIONS UPON REQUEST. It's so easy to grow, there's just no reason for not having it in your own yard.

ONE PLANTING LASTS 12 TO 20 YEARS! With proper care, an investment of \$2.00 in Asparagus roots will bring you returns of 300 to 500%. In the garden the roots may be set 12 inches apart. In the field, rows should be 4 to 5 feet apart, and roots spaced 12 inches apart in the row. Asparagus requires practically no care. There's no frost-hazard, so you're sure of a crop every year.

THERE'S NO WASTE in Asparagus. The few crooked tips taste fine at home, and are taken by canners. The straight tips can be bunched to sell at fancy prices. Packaging cost is almost nothing, and it's not perishable.

PLANT THE BEST ROOTS! Don't try to save a few cents on the small planting cost of Asparagus roots. It pays to get the best. EMLONG'S ASPARAGUS ROOTS are all grown on light, fertile, well-drained soil which insures big-caliper roots that are bright-colored and solid all the way through. Avoid old hollow roots grown on low, wet ground—they would never give satisfaction. We have grown these roots for years, and know how to serve you to your 100% satisfaction. We use only the most expensive pedigreed seed to insure the finest strain of tips on the market. This is important to you. ASPARAGUS CROWNS SHOULD BE PLANTED IN THE SPRING, DURING MARCH, APRIL OR MAY. ORDER TODAY SO THAT WE CAN RESERVE YOUR NEEDS. (Note the discounts available in January, February and March—see page 3).

Emlong's **WASHINGTON** *Variety*

For a decade this fine big tender strain has been the leader everywhere, replacing all old kinds. Washington is rust-proof, having been perfected by the U. S. Department of Agriculture. It produces big, greenish purple, tender stalks famed for their full-but-mild flavor. Usually 6 to 7

inches of the tips are useable, so a few stalks go a long way. We offer WASHINGTON ASPARAGUS ROOTS IN THREE SIZES this year. COMMERCIAL GROWERS PLEASE WRITE FOR PRICES ON LARGE QUANTITIES, stating acreage desired.

PRICES: Washington 1-Yr. roots (Small crop next year)
25 roots 35c; 50 roots 55c;
100 roots 85c; 250 roots
\$1.95; 1000 roots \$4.50.

PRICES: Washington 2-Yr. roots (Crop next year) 25 roots 50c; 50 roots 75c; 100 roots \$1.25; 250 roots \$2.65; 1000 roots \$6.95.

PRICES: WASHINGTON 3-Yr. Jumbo roots. 25 roots 75c; 50 roots \$1.25; 100 roots \$1.95; 250 roots \$3.95; 1000 roots \$11.50.

(25 to 50 roots, mailable. Larger lots by Express. Not prepaid. Can be shipped with other dormant stock.)

New **PARADISE** *Variety*

Here's the new giant strain of Asparagus recently originated in California. It makes long, thick, very tender stalks which grow very quickly. Has a mild, pleasant flavor. HIGHLY RECOMMENDED FOR CANNING AND FREEZING UNDER NEW PROCESS.

Retains its normal flavor after freezing for the fresh vegetable market.

Paradise Asparagus BEARS A FULL CROP OF USEABLE TIPS A YEAR SOONER THAN OTHER VARIETIES. Tips are the same color as Washington, and equally rust-proof. Six stalks average a full pound, making it highly profitable for market. Extra heavy yielding strain. We recommend it highly for both home gardens and field culture. If soil

is kept well manured Paradise Asparagus crowns need not be planted closer than 12 inches apart in the row, with rows 6 feet apart. Crowns are so vigorous they will throw up a wide row of tips.

PRICES: Paradise Asparagus 1-Yr. No. 1 roots (bear next year).

12 ROOTS 50c
25 ROOTS 75c
50 ROOTS \$1.25

Emlong's
Giant

BLUEBERRIES

Everyone can eat these giant cultivated Blueberries, as they have very small seeds and are mild, sweet and free from acid. Fruit is produced in compact clusters 4 to 8 inches long. A beautiful sight on the bushes! Terrific bearers, and big money-makers. Blueberry plants look like shapely, refined shrubs, with their waxy dark-green leaves which color brilliantly in autumn. **Flowers in giant clusters, look like Lily-of-the-Valley**, white with pink bluish. A very useful and beautiful bush for front or back yard or field! **Bear very young—often second year. Last a lifetime with proper care.** Set bushes 5x7 ft. apart. Plant in spring—order today.

QUICK-BEARING, PROVEN-PROFITABLE VARIETIES

Mammoth Sweet Boysenberry

6 PLANTS 69c

The first time you taste Boysenberries, you'll declare them the most delicious berries in the world! They are almost 2 inches long, and just "oozing" with rich, tempting, sweet, tangy flavor. A combination of Raspberry, Dewberry and Loganberry flavors. Marvelous for fresh desserts, pies, preserves, juices, jam, jelly, wine, etc. Ripe before Blackberries. Hardier than Dewberries. Should be trellised. Plant 4x7 feet in **spring**. (Read special planting directions in our free leaflet.)

PRICES: BOYSENBERRY PLANTS, 1-yr. SELECT, 6 for 69c; 12 for \$1.10; 25 for \$1.85; 100 for \$4.95.

GIANT BOYSENBERRY

CUMBERLAND BLACKCAP

6 Plants, 39c

Glistening BLACKCAPS

6 BUSHES 39c

CUMBERLAND: The Blackcap with the "oh-so-rich" flavor. Big, round, glossy black berries borne in clusters on rigid stems. Delicious to eat fresh, in frozen desserts, pies, juices, jam, jelly, or preserved. Ripen midseason to late. Upright plants bear an enormous crop yearly. Planting lasts many years. Set them 3 1/2 x 7 ft. **Plant this spring.** (Special planting directions free on request.)

PRICES: SELECT 1-YR. PLANTS: 6 for 39c; 12 for 69c; 25 for \$1.10; 100 for \$2.75; 250 for \$5.95; 1000 for \$19.50. 2-YR. BEARING AGE: 6 for 85c; 12 for \$1.50; 25 for \$2.50.

GRAPE VINES

THRIVE EASILY ANYWHERE
BEAR FOR A LIFETIME!

CONCORD BLUE. World's favorite late blue-black Grape. Large berries and bunches, borne in enormous quantities. Rich, mellow, full flavor. Wonderful keeping and shipping quality. Favorite for wine, juice, jelly, etc.

FREDONIA. Earliest fancy Blue-Black Grape. Large berries and bunches. Pungent, spicy, delightful flavor and fragrance. Excellent producer and keeper.

CONCORD SEEDLESS. Just out! Same color and flavor as Concord, but **has no seeds.** Wonderful for desserts and pies.

NIAGARA, AMBER-WHITE. The "White Concord" which bears the same large berries and bunches as Concord, and equals Concord in quality and production. The skin is amber-greenish white. Packed full of rich, sweet, muscat-like flavor. Ripens late.

CACO RED. Extra-large bunches and berries of delicate amber-shaded red.

DELAWARE RED. The little red, sweet Grape borne in small, compact bunches.

GOLDEN MUSCAT. Fancy, large, amber-white Grape with delightful aromatic muscat flavor. (Not a California Grape.)

APPETIZING FRUITS *Bring* EASY PROFITS *for garden or farm*

A planting of bush-fruits will give you fine crops for 8 to 12 years. Even a planting of 25 bushes will be a delight to your family. They require very little space, and can be grown along the lot lines as shrubs. Commercial Raspberry plantings bring \$500 to \$1000 per acre yearly to fruit farmers. One-year-old plants bear next year, two-year-old plants usually start bearing the first year. If you haven't a farm, plant at least enough to supply your home table with fresh and canned berries. **Free cultural directions on request.**

LATHAM RASPBERRY

Unquestionably the greatest Red Raspberry of all time! Latham berries are immense, round, plump, and deep glowing red. Unexcelled for richness of flavor and firmness of fruit. Marvelous keeping quality makes them ideal for shipping, canning and freezing. Latham berries start ripening midseason and continue an extra long time. Often bear a surprise crop in the fall. Plants are vigorous growers, extremely hardy, and phenomenal producers. The biggest-paying all-purpose Raspberry for every part of the country. Set plants 3 by 6 feet apart.

PRICES—LATHAM PLANTS ONLY: 1-yr., selected, 6 for 39c; 12 for 69c; 25 for \$1.10; 50 for \$1.65; 100 for \$2.95; 250 for \$5.95; 1000 for \$22.50. 2-yr., bearing-age, 6 for 75c; 12 for \$1.25; 25 for \$2.15; 50 for \$3.50; 100 for \$5.50.

LATHAM RASPBERRY
6 plants, 39c

Easy-to-Grow Thornless BOYSENBERRY

Same big, juicy, delicious fruit as described for the regular Boysenberry (page 29). **The vines are absolutely THORNLESS, making culture and picking so easy.** Train them to a trellis or wire. Ornamental 3-lobed foliage turns red in fall. Set plants 4 by 7 feet apart.

Selected, 1-yr. plants, 3 for 69c; 6 for \$1.00; 12 for \$1.85; 25 for \$2.95; 100 for \$9.95.

Mammoth New Sweet NECTARBERRY

The giant of the entire berry family! It looks like a Boysenberry, but is much larger, and keeps better for commercial canning and shipping purposes. Rapidly gaining favor wherever tested. Vines are vigorous growers and tremendous bearers. Set them 8 feet apart each way. Trellis same as Boysenberry. You must not be without Nectarberries in your garden!

Selected, 1-yr. plants, 3 for 69c; 6 for \$1.00; 12 for \$1.85; 25 for \$2.95, mailable. 100 for \$9.95, by Express.

MAMMOTH
3 Big-Yielding Plants, 69c

LOGAN BLACKCAP

The best, and most dependable early-ripening Blackcap. Should be grown with Cumberland to prolong the picking season and obtain highest Blackcap profits. Logan berries are round, black, free from seediness and free from crumbling. Borne in large clusters. Highly flavored and good for fresh desserts, canning, jam, jelly, etc. Plants are very resistant to drought and frost. Set plants 3 1/2 feet apart in row, with rows 7 feet apart. Plant in spring during late March, April or May. Emlong's plants are double inspected. **Order today—do not delay as plants are scarce!**

AMBROSIA LATE

After other strawberries are practically gone, you'll appreciate the big berries still ripening on your Ambrosia vines. Richly colored and flavored, small seeds, firm skin. Ideal table and market berries. **Self-pollenizing, standard type** originated in Wisconsin. Strong grower, big producer. Hardy. **PRICES: 25 plants, 50c; 50 for 69c; 100 for \$1.00, POSTPAID. 250 for \$2.10; 1000 for \$6.45, Express collect.**

CATSKILL Strawberries

FAIRFAX

A real flavor treat. 100 plants only \$1.00, postpaid.

Fancy STRAWBERRIES

you'll enjoy growing and eating

New DRESDEN

Extra-large cone-shaped berries, of appetizing bright red color, distinguish this new variety recently perfected by the New York Experiment Station. Starting to ripen medium-early, they continue for a long time, each berry maturing to full size, evenly colored. The skin is tough, flesh firm and red way through. You'll like the flavor, for it's sweet, nippy, and sub-acid. Dresden is self-pollenizing.

For the home garden there is nothing finer. And it stands up with the best for market. Compares very favorably with Catskill in yield and marketing quality. Plants have proven hardy in Connecticut. It's a dandy runner-maker, making large, healthy plants. **Get started with DRESDEN THIS SPRING, keep up with the BEST IN STRAWBERRIES!** (Plant only in spring.)

PRICES—DRESDEN PLANTS

Lovely MAGNOLIAS

THE FLOWER OF ROMANCE

Just like a picture in a fairy-story book! Those artistic 10-ft. trees, covered all over with giant cup-shaped 3 to 5 inch blooms. Stiff, waxy petals, ivory on one side with rose on the other. Trees start blooming when about 3 feet tall. Our Soulangeana variety is hardy throughout the country. Plant only in spring. You can easily afford our fine 1 1/2 to 2 ft. specimens at only \$1.50 each.

Lily-Flowered AZALEA Blooming-Size, 85c

These are the flowers you have longed to have in your own yard, so why not treat yourself to some

Azalea shrubs this spring! The brilliant Lily-shaped, 2-inch blooms come in huge clusters. **Azalea Mollis** is the hardy outdoor variety we offer. Flowers are brilliant combinations shaded with orange, red, and pink. Plants grow 3 feet tall. Prefer semi-shade, and acid soil. (Aluminum Sulphate makes soil acid.) 9 to 12 in. plants, 85c each; 2 for \$1.50.

Showiest New Honeysuckle GOLDFLAME

**EVER-
BLOOMING**

There's nothing else like it! Clusters as large as your hand, formed of bright rose-red flowers each carefully lined with gold. Golden anthers complete the lovely form. Blooms THE FIRST YEAR FROM JUNE UNTIL WINTER. Each new branch makes a cluster. Grow it as a vine, or keep it cut back for a shrub. Thrifty grower. Perfectly hardy. 2-yr. BLOOMING - AGE VINES: 75c each; 3 for \$2.00.

Everblooming Polyantha ROSES

A COMPLETE BED OR BORDER For **\$3.50**
Only

10 BIG 2-YR. BUSHES

Bloom THIS YEAR—EVERY YEAR—ALL SUMMER

There's no more useful and delightful flower in the world than these little Polyantha Roses. They come in huge clusters, each very double flower measuring about 1 1/2 inches across. Start in June and continue to bloom all summer and fall. Just cut off old flowers when through blooming each time. Hardy, easy to grow. Plant 16 inches apart in solid beds or borders. **COLORS: IDEAL, Dark Red; GLORIA MUNDI, Orange; CECILE BRUNNER, Pink; GEORGE ELGER, Yellow.** 2-yr. FULL-BLOOMING SIZE BUSHES: 45c each; 3 for \$1.25; 10 for \$3.50.

DEUTZIA P. R.

White tassel-flowers in spikes are lovely for cutting during **June-July**. Green foliage. Grows 5 to 6 feet. **2-yr., well-branched, blooming-size, 35c each; 3 for \$1.00.**

PINK ALMOND

Very double rose-like bright pink flowers from bottom to top of each branch in **May**. Grows 3 to 4 feet. **2-yr., well-branched, blooming-size, 40c each; 3 for \$1.10.**

WEIGELA ROSEA

Bright pink bell-like flowers thickly clustered along branches, which droop gracefully, in **June**. Grows 4 to 5 ft. **2-yr., well-branched, blooming-age, 35c each; 3 for \$1.00.**

WEIGELA FLORIBUNDA

Deep crimson-red bell-like blooms in **July and often thereafter**. Almost everblooming. Grows 4 to 5 feet. **2-yr., well-branched, blooming-age, 40c each; 3 for \$1.10.**

WITCH HAZEL

When leaves turn yellow and drop in **late fall**, unique yellow string-like flowers appear all along stems. Soon followed by brown nut-like seed-pods of great beauty for dried bouquets. Grows 6 to 8 ft. **2-yr., 18 to 24 inch size, 40c each; 3 for \$1.10.**

FORSYTHIA SPECTABILIS

Brilliant yellow bell-flowers cover branches in **April** before leaves appear. Grows 5 to 6 ft. (Color-photo on back cover.) **2-yr., blooming-age, 35c each; 3 for \$1.00. Also 3-yr., 2 to 3 ft., 50c each.**

PERSIAN LILAC

Lacy purple panicles in early spring. Small dainty leaves. Lovely fragrance. **2-yr., 18 to 24 inch shrubs, 35c each; 3 for \$1.00.**

SCARLET QUINCE

Most brilliant scarlet blooms with yellow stamens, literally "set the bush afire" in **May**. Reddish green leaves. Valuable for specimens and also hedges. Fragrant green "quinces" make tasty jelly. Grows 6 to 10 ft. (Photo on back cover.) **2-yr., blooming-size, 35c each; 3 for \$1.00. Also 3-yr., heavy, at 50c each.**

HYDRANGEA

A. G. HILLS OF SNOW. Big, flat panicles of white flowers come in midsummer and last all fall. Wide leaves. Bushy, 3 to 4 ft. grower. **2-yr., well-branched, 12 to 18 inch clumps, full blooming-age, 40c each; 3 for \$1.10.**

SWEET SHRUB

CALYCANTHUS. Low, shapely bush which bears spicy-scented chocolate-colored flowers. Very interesting! **3-yr., well-branched, blooming-age, 40c each; 3 for \$1.10.**

SPIREAS

Korean

TRICHOCARPA. Handsome new type. Large dome-shaped clusters of white flowers with distinct eye! More showy than Van Houttei. Grows medium-height. Blooms **June**. Hardy. **2-yr., 18 to 24 inch blooming-size, 35c each; 3 for \$1.00.**

Golden

The unique **Opulifolia Aurea**, or Golden Ninebark. Creamy white flower with yellow eye, turns to orange fruit-like cluster. **June-July**. Golden 3-lobed leaves. Sheds its bark occasionally. Grows 4 to 5 ft. **2-yr., blooming-size, well-branched shrubs, 35c each; 3 for \$1.00.**

Sorbaria

SORBIFOLIA or FALSE SPIREA. Medium height shrub with graceful fronds of ash-like leaves. Flowers in 6 to 8 inch long white plumes, in **July**. Tops freeze back and come again in spring. Very lovely! **2-yr., blooming-size, 40c each; 3 for \$1.10.**

Billiardi Rosea

Many 6 to 8 inch spikes of fuzzy, rose-colored blooms in **July**, and occasionally all summer. Long, narrow leaves. Upright grower, attains 6 ft. height. **3-yr., blooming-age, 35c each; 3 for \$1.00.**

Thunbergi

Thousands of short branches thickly produced to form a shapely 3 to 4 ft. shrub. Tiny, feather-like foliage. White star flowers in **May**. **2-yr., 12 to 18 inch well-branched, 35c each; 3 for \$1.00.**

Snow Garland

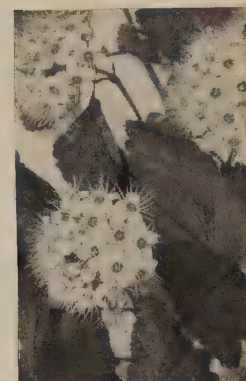

ARGUTA. Many-branched, upright grower of medium height. Branches loaded from ground to tip in **May** with snow-white blooms. **2-yr., well-branched, blooming-size, 35c each; 3 for \$1.00.**

CEPHALANTHUS. Large, fragrant, ball-shaped white flowers in July, remain as dried "buttons" on shrub. Grow 4-5 ft. tall. Shapely shrub—stands damp soil. 2-yr., 12-18 inch blooming-age, 35c each; 3 for \$1.00.

BEAUTY BERRY

CALICARPA PURPUREA. Medium-height shrub with graceful drooping branches lined on both sides with bright green leaves. Pink flowers, loads of bright purple berries. 2-yr., 12 to 18 inch well-branched shrubs, 35c each; 3 for \$1.00.

CARAGANA—PEA TREE

Showy yellow pea-shaped flowers, and fancy locust-like leaves. Grows 10-12 feet tall. Gorgeous for hedges and wind-breaks. 2-yr., 18-24 inch, 35c each; 3 for \$1.00.

ELDERS

AMERICAN. Fancy leaves in clusters. Large white flower-clusters followed by purplish black fruit. Fine for pies, jam, wine. Grows 5-6 feet tall. 3-yr., extra-large shrubs, 35c each; 3 for \$1.00.

CUT-LEAVED. Fancy shredded fern-like leaves of exotic beauty. Same general habit as above. 3-yr., extra-large shrubs, 35c each; 3 for \$1.00.

HONEYSUCKLES

FRAGRANTISSIMA. Fragrant white flowers in June. Red berries. Almost evergreen. **Priced below.**

MORROWI. Creamy-white flowers, loads of big red berries. Round, shapely bush. **Priced below.**

PINK TARTARIAN. Pink flowers and red berries. Very showy.

PRICES: All Honeysuckles above: 2-yr., blooming-size, well-branched, 35c each; 3 for \$1.00. **ALSO PINK TARTARIAN,** 3-yr., 2-3 ft., 45c each.

KERRIA—JETBEAD

RHODOTYPOS KERRIODES. Lovely 3 to 4 foot shrub with bright green, heavily corrugated leaves. White flowers in May, multitudes of black beads. Stands shade. 2-yr., well-branched, 12 to 18 inch shrubs, 35c each; 3 for \$1.00.

VIBURNUM

STERILE. Large balls of snowy-white flowers, May-June. Handsome 3-lobed leaves color in autumn. Grows tall. 2-yr., 18-24 inch, 59c each; 3 for \$1.50.

MOCK ORANGE

PHILADELPHUS VIRGINALIS. Medium-tall shrub, compact habit. Fragrant, double creamy-white blooms in giant clusters. Flowers nearly all summer. Photo on back cover. 3-yr., 2 to 3 ft. blooming-age, 50c each; 3 for \$1.35.

PHILADELPHUS GRANDIFLORUS. Largest and whitest flowers with yellow stamens in June. Tall grower. 2-yr., blooming-age, 35c each; 3 for \$1.00.

FRENCH PUSSY WILLOW

New wide-leaf, compact, shrub-type. Hordes of extra-large catkins in April remain long time. 2-yr., well-branched, 18-24 inch, 30c each; 10 for \$2.50. Also 2-3 ft., 35c each; 3 for \$1.00.

RUSSIAN OLIVE

ELAEOAGNUS ANGUSTIFOLIA. Silvery foliage, tiny flowers, large olive-like ornamental fruits. Grows tall. 2-yr., well-branched, 12-18 inch, 30c each; 10 for \$2.50.

SNOWBERRIES

CHENAULTI RED. Graceful drooping branches covered entire length with tiny winglike leaves which color red in fall. Tiny pink blooms, large clusters maroon berries. Dry them for winter bouquets. 2-yr., 18-24 in., 35c each; 3 for \$1.00. Also 3-yr., 2-3 ft., heavy, 45c each; 3 for \$1.20.

RACEMOSUS WHITE. Medium-height shrub similar to above but leaves are green and berries are white in large clusters. 2-yr., well-branched, bearing size, 35c each; 3 for \$1.00.

SUMAC, AROMATIC

Fernlike leaf fronds turn bright red in fall. Red fruits, with aroma. Grows 6 to 8 ft. 3-yr., extra-large, 35c each; 3 for \$1.00.

DOGWOOD

Red-bark, shrub-Dogwood, which has flat, white flower-clusters and fruits. 3-yr., 18-24 inch, 35c each; 3 for \$1.00.

TAMARIX

HISPIDA. Medium-height, feathery gray foliage and plumes of bright rose blooms in late summer. Photo on back cover. 2-yr., blooming-size, 35c each; 3 for \$1.00. Also 3-yr., 2-3 ft., heavy, 45c each.

AFRICANA. Tall, green-foliage type, rose-pink blooms in June. 2-yr., 11½-2 ft., heavy, 35c each; 3 for \$1.00.

Order quickly, for the supply of these gorgeous new beauties may not go around! Everybody is excited about them. The florets measure 2 inches across, and come 80% in doubles! They cluster thickly along spikes measuring 10 to 15 inches long, and plants grow 3 to 5 feet tall. Every floret is a picture in itself, with gracefully fluffed petals and delicate two-tone shadings. Dozens of color combinations! One cannot begin to describe their great beauty, either with words or pictures. As this variety is new, our plants are one-year size, but will bloom for you this year. **Priced at the left.**

NEW HARDY Fuchsias

No words can describe the breath-taking beauty of these graceful pendent flowers. Plants set this spring grow larger every year until they become 2 to 3 ft. tall, and equally wide. **Bear thousands of blooms from June until frost.** Plant in perennial beds and borders. **Prefer partial or full shade.** Mulch lightly when ground freezes in fall. New tops come every year. Hardy garden plant but can be potted for indoor blooming if desired.

59c Prepaid

Fine, evergreen leaves, cluster thickly to make a compact globe-shaped bush about 18 inches tall by 2 ft. wide at maturity. Covered in spring and fall with clusters of bright pink fragrant flowers. **3-yr., 4 to 6 inch branched BLOOMING-SIZE, 59c each; 3 for \$1.50, PREPAID.**

DAZZLING NEW BUDDLEIAS

Now Only **59c** Postpaid

The color-photo below gives you a small idea of the great charm of these new Buddleias, but you must see a whole bush blooming from midsummer until winter, just loaded with hundreds of compact flower spikes, many measuring 8 to 10 inches long, to fully appreciate them. Attract gorgeous butterflies to your yard! Luxurious for bouquets. Bushes grow 3 to 4 feet tall. Freeze back in winter, come again in spring. Hardy roots. **FIELD-GROWN BLOOMING-AGE PLANTS: 59c each; 3 for \$1.50, POSTPAID.** Varieties: **DUBONNET**, wine-purple; **FORTUNE**, deep lavender with orange eye; **CHARMING**, brilliant pink.

All 3 of the New Buddleias

Let us send you one each of Buddleia Dubonnet, Fortune, and Charming, all blooming-age plants **prepaid**. (No discount.)

New Red Yucca

THE Luxury PERENNIAL Plummy Astilbe

Blooming-Age Plants **2 for \$1** Postpaid

Here is just the plant for the north side of the house, or low foundations, borders, groups. Commonly called Perennial Spirea. Grows 3 to 4 feet tall. Prefers part shade but thrives anywhere. Fragrant plummy wands of flowers 8 to 10 inches long, July until September. Ornamental leaves. **Hardy** roots. Easy to grow. **VENUSTA**, bright crimson. **Blooming-age field plants: 59c each; 2 for \$1.00; 10 for \$3.65, postpaid.**

BRILLIANT NEW

Red Yucca

The favorite "Spanish-Bayonet" flower has come to life with a new **Red Dress**. Mature plants produce many 3 to 5 ft. spikes, blooming from June until frost. Increases in beauty every year. Plant them at garden entrance, corners, etc., for brilliant accent. Our 1-yr. field-grown plants bloom next year. (We recommend mulching the first winter.) **Plant only in spring. Order today. 59c each; 2 for \$1.00, POSTPAID.**

3 DIFFERENT HYDRANGEAS

1 Blue Hydrangea
1 Hydrangea P. G. **\$1.25**
1 Hydrangea A. G.

An elegant planting of shrubs. (No discount.)

Royal Blue Hydrangeas only **59c** Postpaid

You must have at least two of these lovely colored Hydrangeas! Plant them 2 feet apart. They grow about 2 feet tall. Increase in beauty each year. Bloom **pink** on the new wood, **blue** on the old wood. Sometimes old wood freezes back in winter but roots are hardy and throw up new growth in spring. Light mulching helps in colder climates. Likes sun or semi-shade. Prefers acid soil. (Teaspoonful Aluminum Sulphate 3 times every summer provides acid.) Peat moss mulch is good. **Grow Blue Hydrangeas for your fancy bouquets! 2-year, field-grown plants: 59c each; 2 for \$1.00; 10 for \$4.50, POSTPAID.**

Emlong's First Prize

You don't need to spend hours studying Rose descriptions. Our experts have travelled from coast to coast observing and tabulating facts about Roses. We also test all worth-while varieties in our own gardens. Out of more than 200 varieties we have chosen those described on pages 33, 46, and pictured below, as the Prize-Winners for color, tone, size of bloom, fragrance, petal formation, lasting quality, foliage, number of blooms, etc. (It is impossible to show full-size photos on these pages, due to limited space. Most of these blooms actually measure 5 inches across.)

Prize Exhibition Rose Garden

Every one of the brilliant beauties pictured on these two pages—14 bushes in all. The newest, finest varieties, selected to give you the best and most flowers. Our finest selected 2-year super-size bushes, same quality used in our exhibition garden. These are the favorites selected by visitors at our Rose show of 15,000 bushes last summer.

Here are seven of the most gorgeous Iris rhizomes of today, selected for you by one of the world's largest Iris growers and breeders. Each a distinctly colored beauty queen. Plant them lavishly! **ORDER TODAY!**

YOUR CHOICE OF ANY 3 for 50c; ANY 6 for 89c; ANY 12 for \$1.50.
All labeled and postpaid.

AMBASSADEUR. Showy bronze standards. Broad, carmine-purple falls richly coated with velvet. Majestic form.

DR. CHAS. MAYO. Mammoth, glittering blooms of clear pink, satiny texture.

MANON. Extra-large variegated. Creamy-white, pink, gold, violet, with orange beard. Sweet fragrance.

MORNING SPLENDOR. Most gorgeous, showy,

mammoth heads of rich wine-red. Orange beard. Long-lasting!

PIONEER. Dark purplish wine of rich fragrance and very free-flowering.

PRIMROSE. Brilliant amber standards with bright lemon-yellow falls.

TENEBRAE. Largest, loveliest lilac-blue with shimmering frosty surface.

Note.—Iris can be planted in March, April, May, August, September, October.
